There you are ... here I am  
Both of us doing the best we can  
You've got your own life oh and I've got mine  
Though our music is different  
We share the same steps in time

Here I am ... there you are  
Sometimes the miles between us seem so far  
When those empty spaces start to fill my mind  
I think of you and leave my troubles behind

Hey don't you know  
You're a once in a lifetime friend  
Though others may come and go  
I'll be there till the end  
Oh yes I will  
I love you so we'll share the joys and the tears  
I'll be there through the years ... through the years

When we get together good times take to the wings  
New hopes and visions suddenly begin to sing  
Open hearts and gentle ways  
Trusting the ebb and flow  
Will guide the direction which we choose to go

Hey don't you know  
You're a once in a lifetime friend  
Though others may come and go  
I'll be there till the end  
Oh yes I will

I love you so we'll share the joys and the tears  
I'll be there through the years ... through the years

Here I am ... there you are  
Sometimes the miles between us seem so far  
Still knowing a friend like you  
Gives me the strength to be  
You're always there ... you live inside of me

Hey don't you know  
You're a once in a lifetime friend  
Though others may come and go  
I'll be there till the end  
Oh yes I will  
I love you so we'll share the joys and the tears  
I'll be there through the years ... through the years  
Don't you know don't you know don't you know  
You're a once... in a lifetime... friend .....  
Oooh friend ....
